Kumail Ahmad

Full Stack Developer

+91 7889404619 | kumailahmad217@gmail.com | github.com/kumail-ahmad | LinkedIn | Portfolio

SUMMARY

Full-stack developer and Computer Science undergraduate building full-stack, backend, applications. Experienced with React, Next.js, Node.js, REST APIs, authentication, and databases, with a strong foundation in data structures, algorithms, and software engineering. Hands-on experience independently developing and deploying end-to-end projects, with a growing focus on backend systems and machine learning. Seeking to apply and expand these skills in a professional software engineering environment.

EDUCATION

Islamic University of Science and Technology (IUST)
Bachelor of Technology in Computer Science and Engineering
CGPA: 9.1/10 (current, degree in progress) | Sep 2024 – Present | Awantipora, Kashmir

- Relevant Coursework: Data Structures & Algorithms, Software Engineering, Computer Organization & Architecture, Data Communications, Web Development

Burn Hall School
Higher Secondary (Class XII)
Apr 2021 – Mar 2023 | Srinagar, Kashmir

- Graduated with **A1 grade**;

PROJECTS

Agora — Civic Issue Reporting & Engagement Platform | July 2026

- Built a full-stack civic issue platform enabling citizens to report, discuss, and prioritize local infrastructure issues.
- Implemented JWT-based authentication and role-based access for citizen and administrator workflows.
- Developed a weighted community-priority system using Low, High, and Critical urgency flags to rank reported issues.
- Integrated Leaflet and OpenStreetMap for location-based issue visualization.
- ***Tech:*** *React, Node.js, Express.js, MongoDB, Mongoose, JWT, Leaflet, OpenStreetMap*

Hoppr — Ride-Booking Platform | Jan 2025

- Built a **real-time ride booking platform** with live ride tracking via third-party APIs, supporting the full booking-to-completion flow
- Implemented secure **authentication using Clerk**, covering sign-up, login, and session management
- Designed a **simplified, user-centric UI/UX** prioritizing ease of navigation for first-time riders
- *Tech: Next.js, Tailwind CSS, MongoDB, Clerk Auth*

PalmLink — Personalized Link-Hosting App | Nov 2024

- Developed a **Linktree-style link-hosting app** with user-configurable profiles for social media, portfolios, and personal sites
- Built with **Next.js SSR and dynamic routing** for fast, SEO-friendly page loads
- Delivered a **fully responsive layout** tested across mobile and desktop breakpoints
- *Tech: Next.js, Tailwind CSS*

SKILLS

Languages: C, C++, Python, SQL, PHP, JavaScript,Typescript
Frontend: React, Next.js, Tailwind CSS, EJS, HTML/CSS
Backend & Database: Node.js, MongoDB, SQL
Tools & Platforms: Git, GitHub, Vercel, Clerk Auth, REST APIs
